

XI Meeting ASEICA

Auditorio Alfredo Kraus, Las Palmas, 10-12th May 2007

Thursday, May 10th

Sala Sinfónica

08:00-10:00 Registration

09:00-11:00 Hallmarks of cancer (EACR - ASEICA session)

Chairpersons: **Rosario Perona, Richard Marais**

Richard Marais, Inst Cancer Research, London
Rosario Perona, IIB, Madrid

Marco Pierotti, Fondazione IRCCS INT, Milano

Pere Gascón, IDIBAPS, Barcelona.

Signalling by oncogenic BRAF

JNK/MKP1, PI3K and NFkB the major pathways controlling cellular response towards cisplatin in non-small cell lung cancer

The promises of targeted therapies and challenges of the intrinsic and acquired resistance

Abstract not received

11:00-11:30 Coffee break

11:30-12:30 **INVITED LECTURE:**
HPV, screening and vaccines: a new scenario for the global prevention of cervical cancer

Chairperson: **Pedro C. Lara**

Xavier Castellsague, ICO, Barcelona

12:30-13:30 Opening ceremony

13:30-15:00 Lunch and visit to poster hall

15:00-17:00 Signal transduction

Chairpersons: **Eugenio Santos, Atanasio Pandiella**

Atanasio Pandiella, CIC Salamanca

Ángel Nebreda, CNIO, Madrid

Eugenio Santos, CIC, Salamanca

Isabel Mérida, CNB, Madrid

The ErbB system in breast cancer: a translational perspective

Regulation of tumorigenesis by p38 MAP kinases

Transcriptional networks of knockout cell lines identify functional specificities of H-Ras and N-Ras: Significant involvement of N-Ras in biotic and defense responses

Diacylglycerol signalling network and cancer: emerging concepts and therapeutic implication

17:30-18:00 Coffee break

18:00-19:00 **INVITED LECTURE: Epigenetics of Breast Cancer**

Chairpersons: **Joan Albanell**

Manel Esteller, CNIO, Madrid

Thursday, May 10th	
	Sala de Cámara
	Canarias Bioregión – Proyecto Biopolis
09:00-11:00	Antitumoral drugs: Preclinic studies (Canarias Bioregión - Proyecto Biopolis)
	<p>Chairpersons: Angel G. Ravelo, Nelson Simoes</p> <p>Mario Díaz, U. La Laguna, Tenerife Synthesis and evaluation of novel tamoxifen derivatives: application to the study of genomic and alternative effects of antiestrogens</p> <p>Nelson Simoes, Univ. Azores Abstract not received</p> <p>José M Padrón, ICIC, La Laguna Mechanism of action of novel antiproliferative Persenone analogs</p> <p>Amancio Carnero, CNIO, Madrid Levels of p27kip1 determine Aplidin® sensitivity</p>
11:00-11:30	Coffee break
13:30-15:00	Lunch and visit to poster hall
15:00-17:00	Cancer research network at the Macaronesia (Canarias Bioregión - Proyecto Biopolis)
	<p>Chairperson: Javier Dorta, Manuela Lima</p> <p>Jacome Armas, Azores Abstract not received</p> <p>Amilcar Flores, Karolinska Inst., Stockholm Role of ezrin in androgen-induced prostate cancer cell invasion</p> <p>Cristina Bilbao, ICIC, Univ. Las Palmas Target genes for microsatellite instability in endometrial cancer</p> <p>Marta Lloret, ICIC, Hos. Dr Negrín, Las Palmas Opportunities for prediction of tumour response in cervix carcinoma to oncological treatments</p>
17:30-18:00	Coffee break

		Friday, May 11th	
		Sala Sinfónica	
09:00-10:30		Recent advances in cancer research	

	<p>Chairpersons: Maribel Núñez, Javier León</p> <p>Javier León, Univ. Cantabria Inhibition of cell differentiation by MYC oncogene: interactions with p27 and Ras</p> <p>Victor Puentes, H. S.Pau, Barcelona Inorganic Nanoparticles Target Cancer</p> <p>Salvador Aznar,CRG, Barcelona Epidermal Homeostasis and Cancer: Role of Rac and Myc</p>
10:30-11:00	Coffee break
11:00-12:30	Molecular mechanism of cancer
	<p>Chairpersons: Francisco X. Real</p> <p>Amparo Cano, IIB, Madrid Regulation of Epithelial-Mesenchymal Transition by Snail and Lysyl Oxidase like proteins</p> <p>M. Sánchez-Céspedes, CNIO, Madrid Genomic screening for the identification and characterization of novel cancer genes</p> <p>Francisco X Real IMIM, Barcelona Molecular mechanisms in nonmuscle invasive bladder cancer: lessons from the skin</p>
12:30-13:30	INVITED LECTURE: Getting in and out of mitosis
	<p>Chairperson: Amancio Carnero</p> <p>Jonathon Pines, Welcome CR, UK</p>
13:30-15:00	Lunch and visit to poster hall
15:00-17:00	New drugs against therapeutic targets (SEOM/ASEICA)
	<p>Chairpersons: Alfredo Carrato, Juan Carlos Lacal</p> <p>Juan Carlos Lacal, IIB Madrid Choline kinase α is a novel therapeutic target in human cancer</p> <p>Prem Reddy, Cancer Centers, USA A non-ATP competitive inhibitor of JAK2 kinase for the therapy of MPD</p> <p>Eric Rowinsky, Imclone, USA Monoclonal antibodies targeting the insulin-like growth factor-I receptor in cancer therapy</p> <p>Michael Karin, UCSD, USA IκB kinases (IKK) - putting inflammation and cancer together</p>
17:30-18:00	Coffee break
18:00-19:00	INVITED LECTURE: The genetics and epigenetics of gastrointestinal cancer
	<p>Fundación Olga Torres - ASEICA session</p> <p>Chairpersons: Manel Esteller, Jesús G. Foncillas</p> <p>Manuel Perucho, Burnham Inst., San Diego</p>
19:00-21:00	El Paciente con Cáncer y el Arte
	<p>Chairpersons: Pedro C. Lara, Javier Anido</p> <p>José Dámaso, Las Palmas</p> <p>Laura Valenzuela, Madrid</p> <p>Sancho Gracia, Madrid</p>

Friday, May 11th	
	Sala de Cámara
09:00-10:30	Genomics and proteomics in cancer diagnosis (GENOMA ESPAÑA / ASEICA)
	<p>Chairpersons: Angel Carracedo, Ana Zubiaga</p> <p>Ángel Carracedo, U. Santiago Xosé Bustelo, CIC Salamanca</p> <p>Jesús G. Foncillas, CIMA Navarra</p> <p>Finding genes that underlie cancer using genetic tools Transcriptomal profiling of the cellular transformation induced by Rho subfamily GTPases Pharmacogenomics in clinical practice: from bench to bedside</p>
10:30-11:00	Coffee break
11:00-12:30	Molecular Pathology
	<p>Chairpersons: José Costa, Isabel Mérida</p> <p>Carlos Cordon, Sloan-Katering NY José Costa, Yale Univ. Manfred Schmitt, EORTC Biopathology</p> <p>Molecular and Systems Pathology: Guiding Clinical Trials and Oncology Practice Epigenomics of Head and Neck Cancer: are changes in repetitive DNA sequences informative? The EORTC PathoBiology Group mission: Translational cancer research at the basic and clinical level</p>
13:30-15:00	Lunch and visit to poster hall
15:00-17:00	Molecular epidemiology of cancer
	<p>Chairpersons: Nuria Malats, Javier Benítez</p> <p>Javier Benítez, CNIO, Madrid Antonio Cabrera, ICIC, Islas Canarias Núria Malats, IMIM, Barcelona Núria Sala, IDIBELL-ICO, Barcelona</p> <p>New strategies in the search for low penetrance genes in breast cancer Epidemiology of the breast cancer Genetic variation in inflammatory genes and bladder cancer risk: a pathway approach Genetic Susceptibility of Gastric Cancer: results from the EURGAST study</p>
17:30-18:00	Coffee break

Saturday, May 12th	
	Sala de Cámara
09:00-10:30	Basic and applied research in radiobiology (NUCLETRON-SEOR-ASEICA)
	<p>Chairpersons: Ana Mañas, Jesús Romero</p> <p>Pedro C. Lara, ICIC, Las Palmas Peripheral blood lymphocytes and prediction of long-term radiation-induced clinical toxicity</p> <p>Claus Belka, Univ.Tübingen Radiation Oncology – Radiation Biology – New Targets & New perspectives</p> <p>Kevin Harrington Inst Cancer Research, London Opportunities for Applied and Basic Research in Radiobiology</p>
10:30-11:00	Coffee break and visit to poster session
11:00-12:30	Prostate Cancer (ICIC-ASEICA)
	<p>Chairpersons: Marta Lloret, Joan Albanell</p> <p>Nicolás Diaz-Chico, ICIC. Las Palmas Role of the CAG and GGN polymorphisms of the Androgen Receptor gene in prostate, breast and endometrial cancer</p> <p>Ferran Guedea, ICO Barcelona, The Role of radiotherapy in localised or locally advanced prostate cancer</p> <p>Joan Albanell, IMIM, Hospital del Mar, Barcelona Studies of NF-kappaB in prostate and breast cancer: clinical and therapeutic implications</p>
13:30-15:00	Lunch and visit to poster hall
15:00-17:00	Breast Cancer (SESPM – ASEICA)
	<p>Chairperson: Edelmiro Iglesias</p> <p>John Foekens, Erasmus Univ.Rotterdam Molecular pathways for breast cancer prognosis and site of relapse</p> <p>Fernando Vidal-Vanaclocha, UPV, Bilbao Pathogenic and Prognostic Aspects of Interleukin-18 in Breast Cancer Progression and Metastasis</p> <p>Federico Rojo, IMIM, Hospital del Mar, Barcelona Molecular Pathology in Breast Cancer</p> <p>Xavier Andreu (SESPM) Abstract not received</p>
17:00-17:30	Coffee break and visit to poster session
17:30-19:00	Selected communications (II) (Zona Especial Canaria, ZEC-ASEICA)
	<p>Chairpersons: Maribel Núñez, Ana Zubiaga</p> <p>12 oral presentations (8+2 min)</p>
